

AI Powered

FieldForce Monitor

By EmpFly

No additional Hardware Investment.

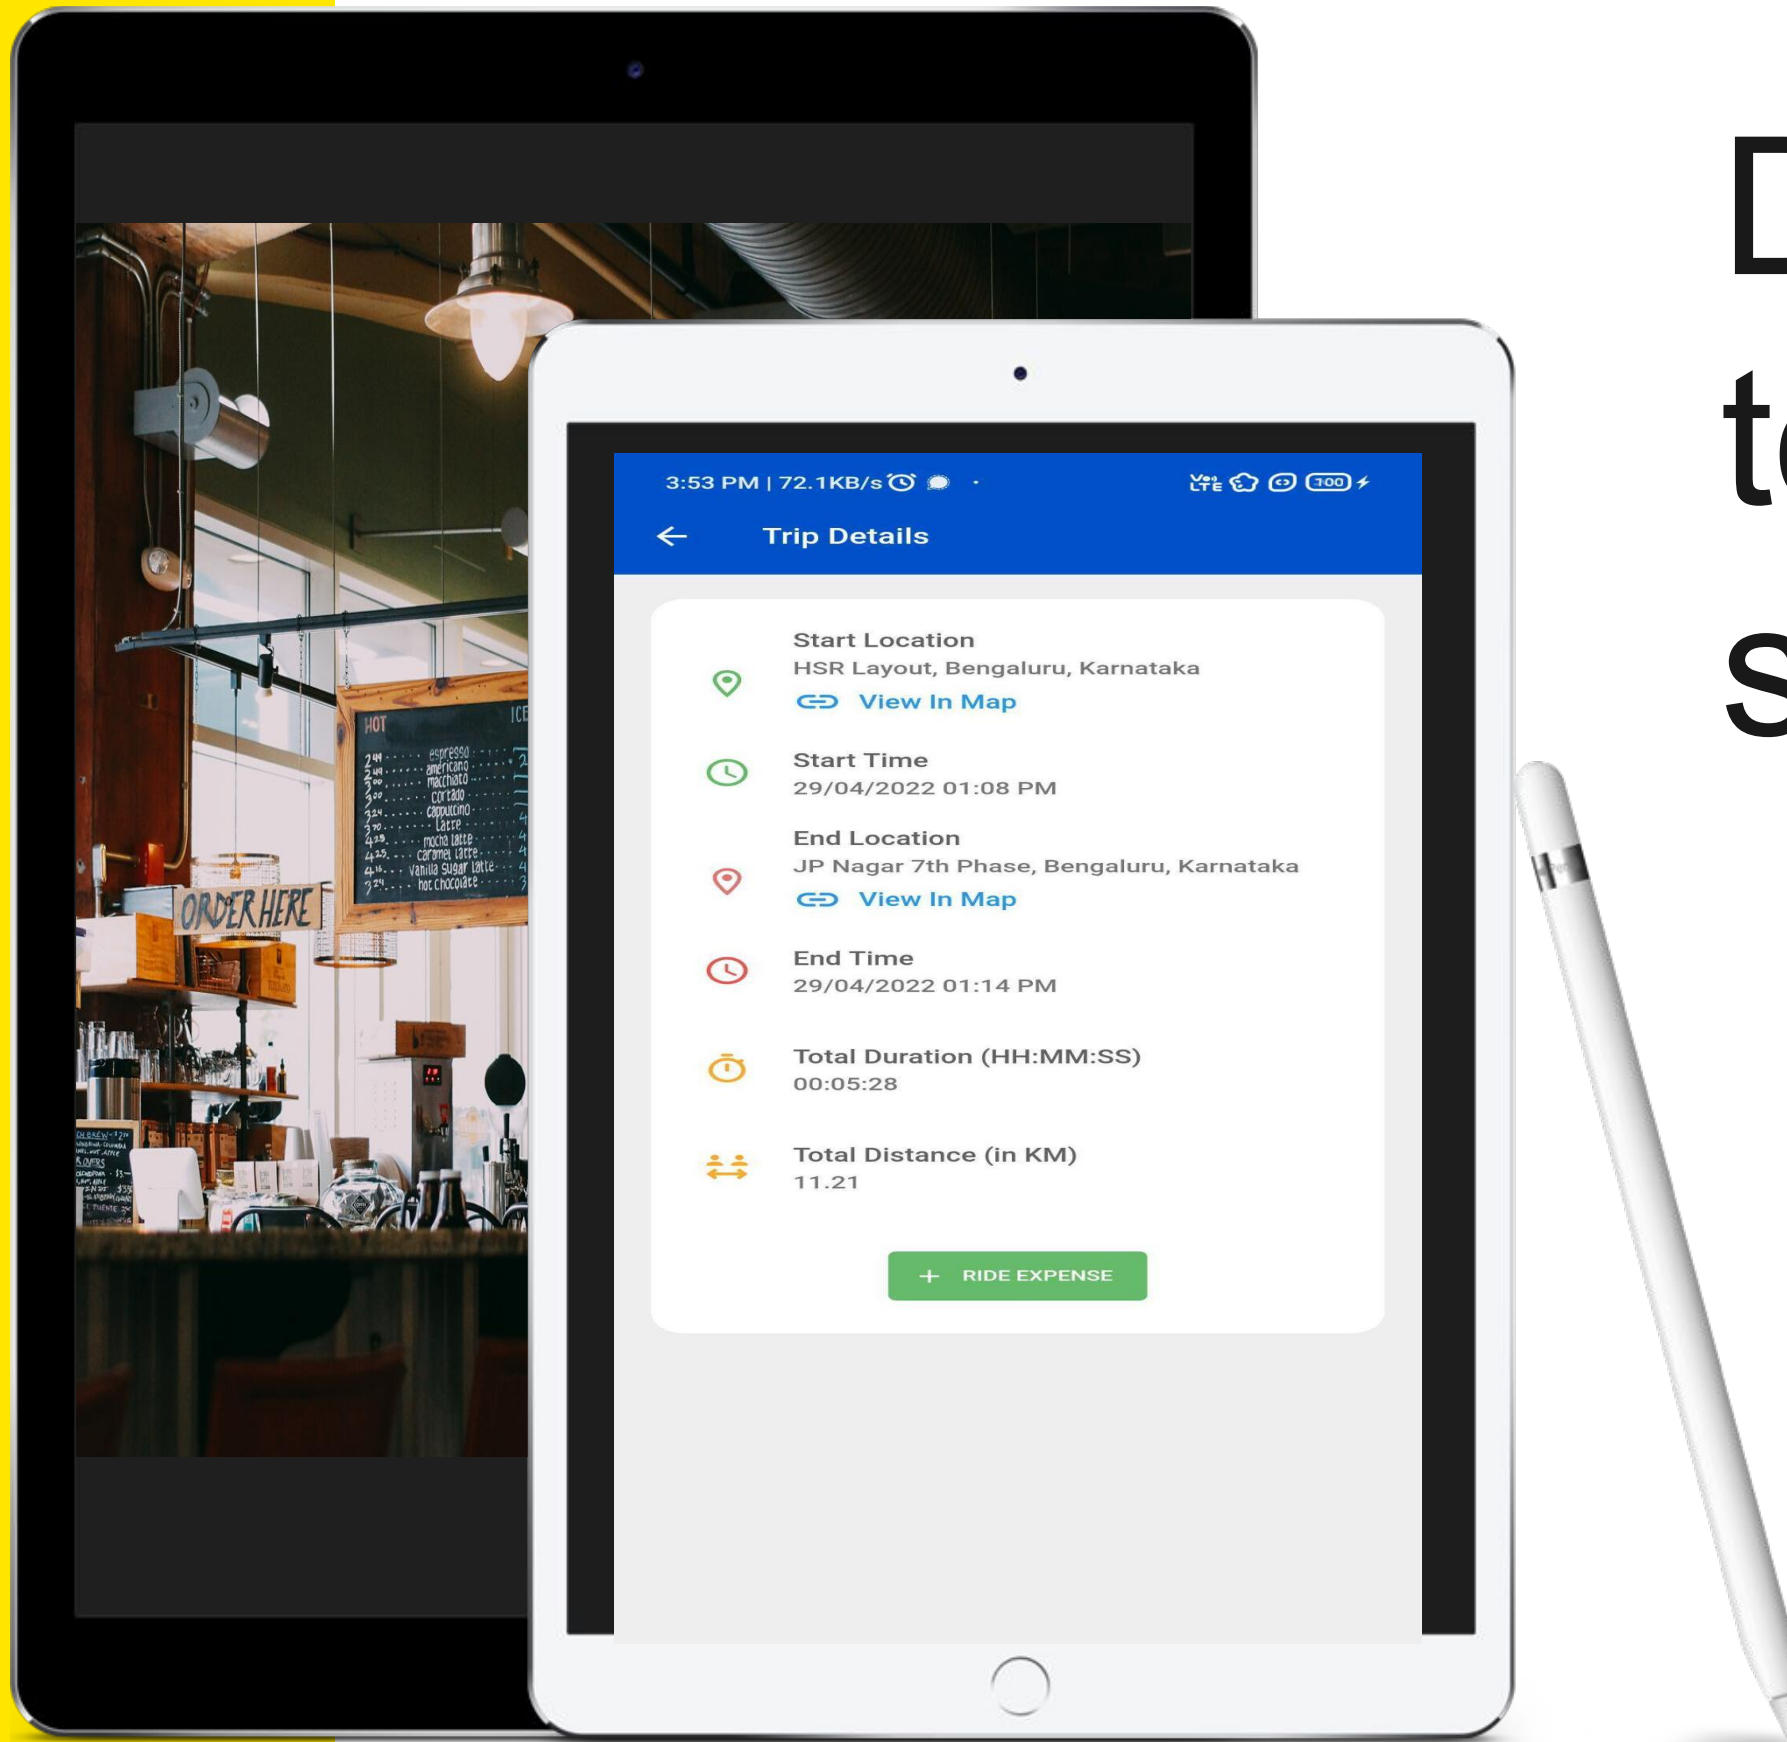

Discover a new way to run high-velocity sales

Automate team monitoring with geo-tracking and geo-fencing

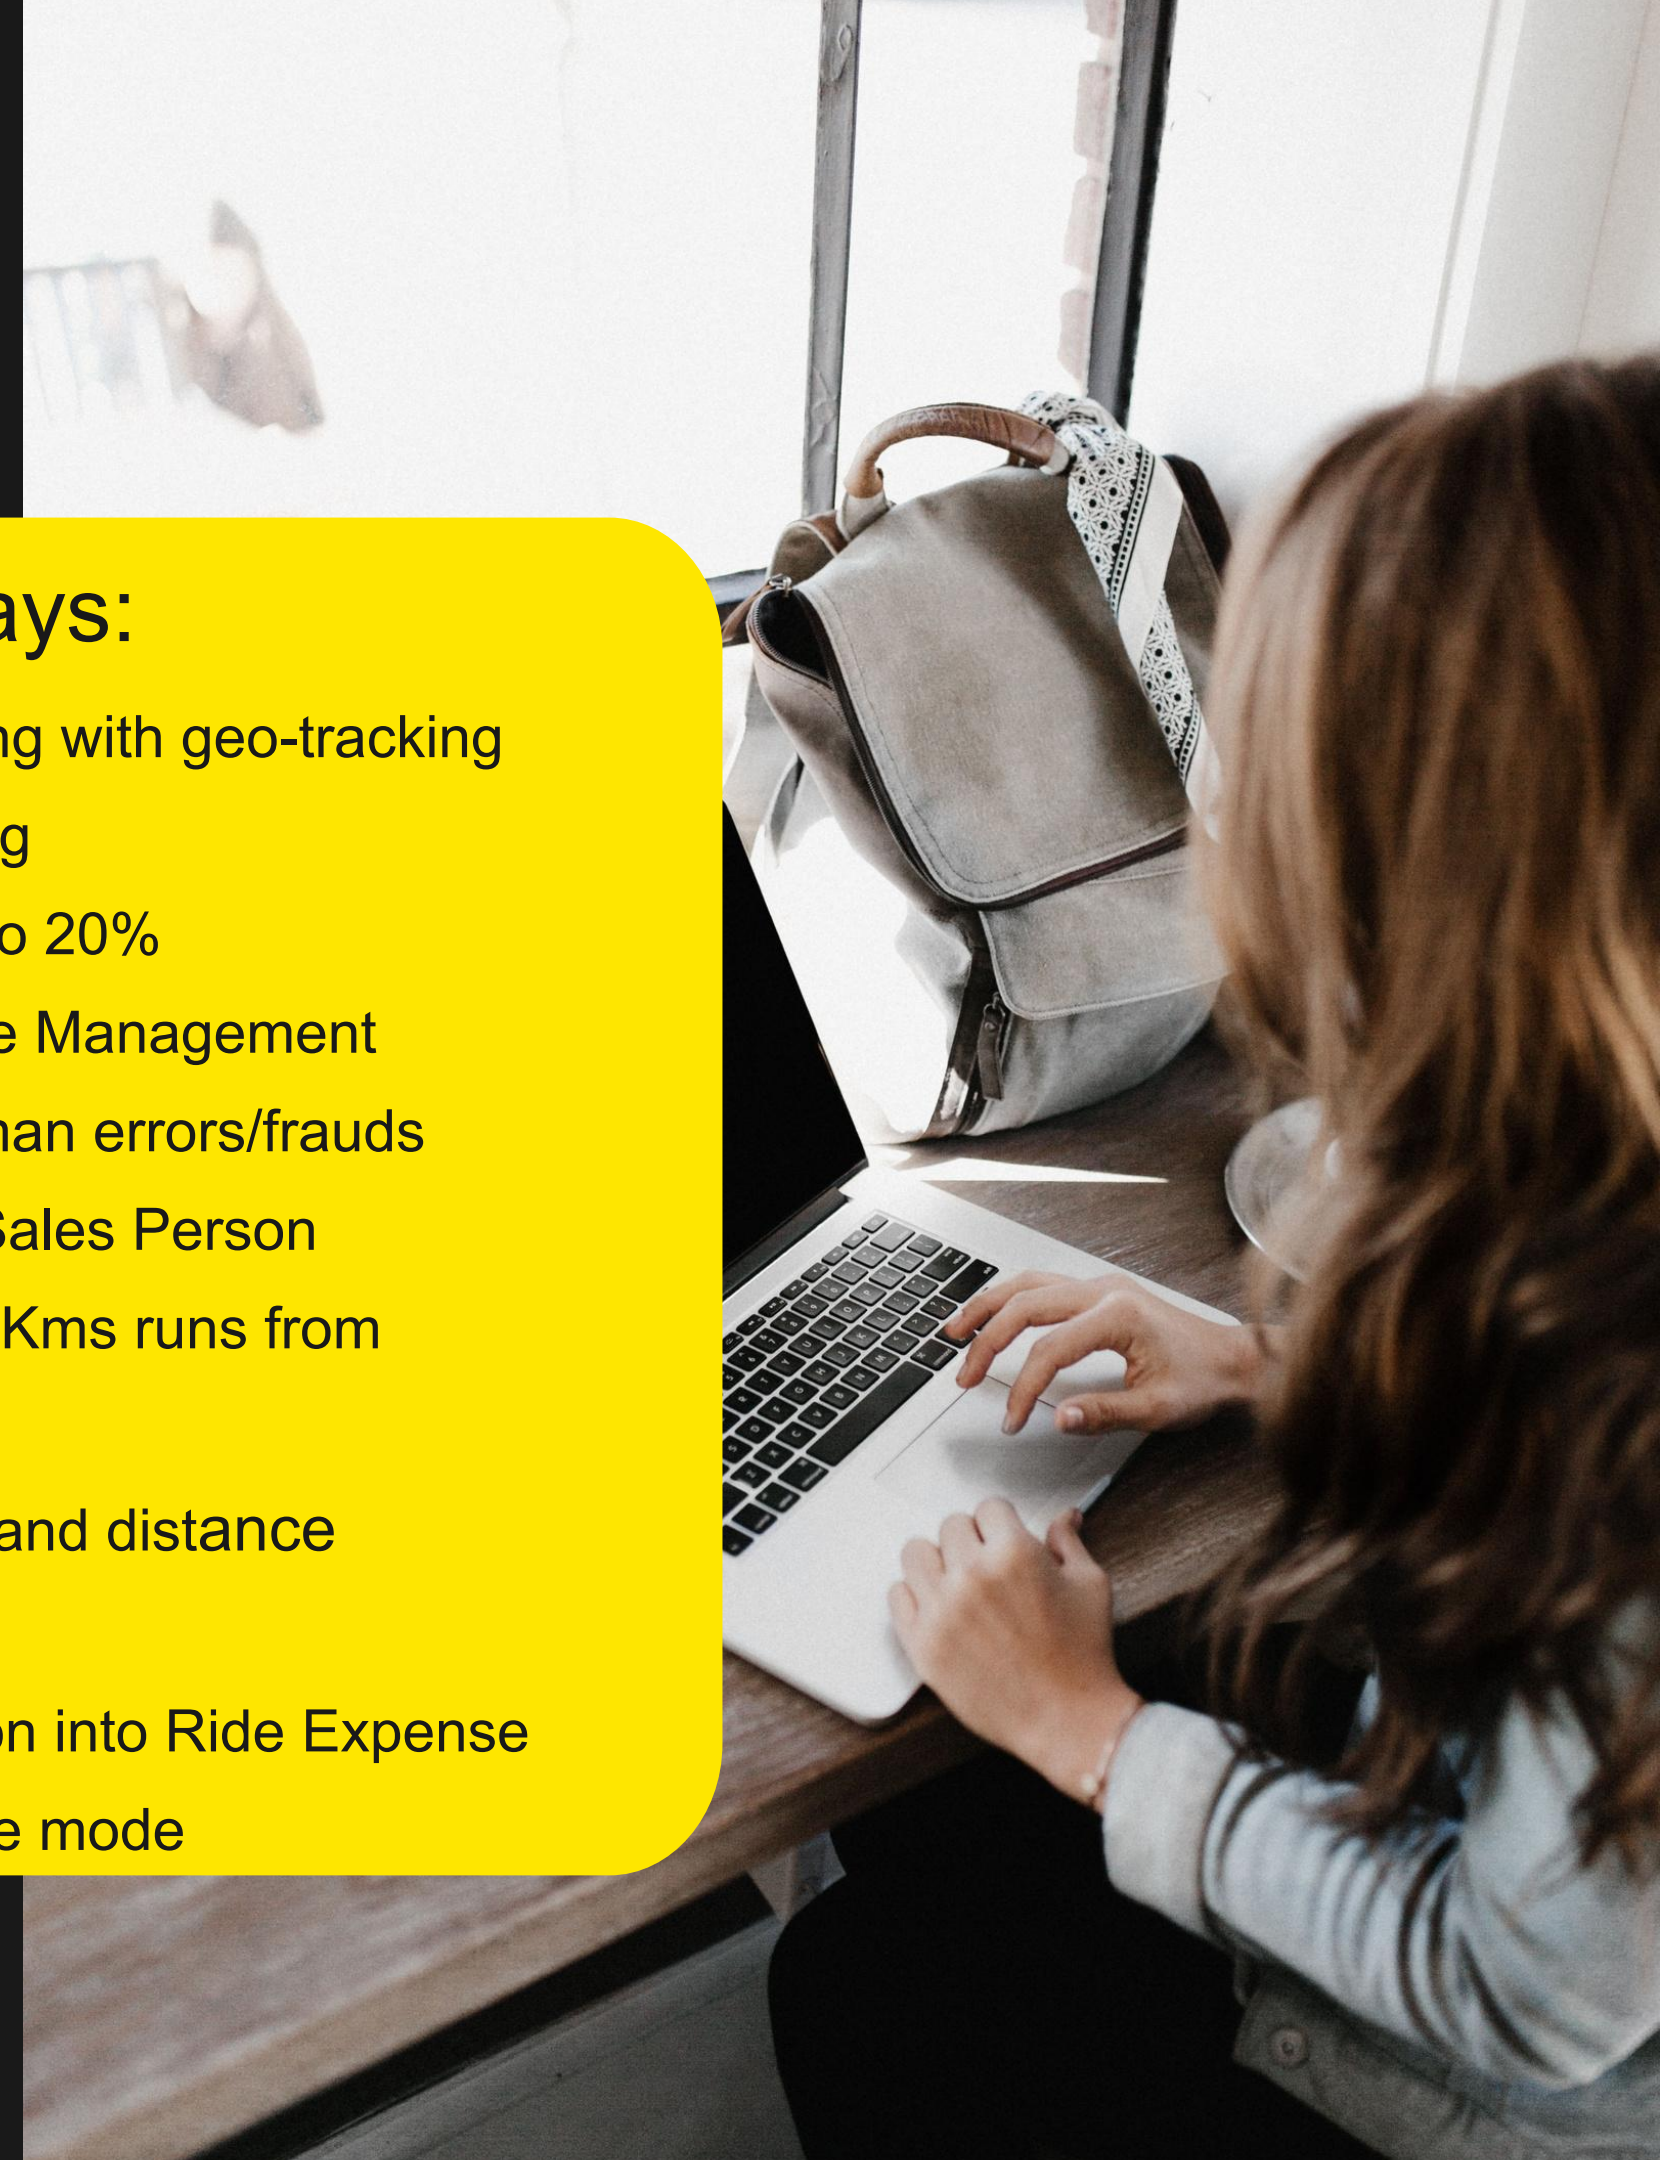

Monitor your Field Agents & Teams. Prevent fraudulent check-ins, and meeting misrepresentations using geo-fencing. Your agent can't check-in or add meeting notes without being physically present in that location. Not only does it prevent dishonest practices, but also ensures that the reports are accurate.

Key Benefits

Key takeaways:

- Team Monitoring with geo-tracking and geo-fencing
- Saves cost upto 20%
- AI-driven Route Management
- Eliminates human errors/frauds
- Push Trips to Sales Person
- Verified ETA & Kms runs from Google Maps
- Location, time and distance Calculation
- Swift conversion into Ride Expense
- Works in Offline mode
